COL. YOUNG URGES FORMING LEGION POSTS.

Boston, Mass., Jan. 15.—The American Legion was recommended as the most potent influence for justice the Negro can tie to by Col. Charles Young, ranking colored officer in the United States Army, in an address before a colored audience that filled Tremont Temple. Col. Young was the main speaker at the open session of the Omega Psi Phi fraternity called to discuss the aspirations of the race and the duties of the Negro to America.

While the other speakers urged that colored people assert their rights of citizenship and abandon reactionary leaders, Col. Young found this theme, America's expectations from the Negro.

"The black quota, which we as a group must add to American life, will include the spiritual and cultural things," he said. "While we want every privilege any race has, we cannot get along without the white man. There is enough Americanism in all the races in the country to keep American intact."

"I would not have you cringe before any man. But you must have no more bloodshed, no more race riots. No Negro must shed any blood demanded in the defense of his family and of his citizenship. Human life is sacred. There is nothing in anarchy for the Negro."

The ballot and the National Association of the Colored People, Col. Young listed after the American Legion as forces by which race would achieve full equality in America.

R. G. Robinson made the opening remarks, in which he spoke of the ideals inculcated by the fraternity, the oldest colored Greek letter fraternity by unity in the race "against which white propaganda has been directed." Colored people could be of greatest value to the country.

Lieut. Oswald McCann of the 15th New York Infantry, president of the League for Democracy in New York, sounded a radical note that received enthusiastic applause.

"The Negro has his greatest work to do in the political field," he said. "And his program must be a radical one. The Negro cause lies with labor, for the same influence that labor seeks to rid itself of oppress the Negro. We would not tear down the Constitution. It is my dearest dream that all the provisions of the Constitution may become effective."

In the past 30 years, under Republican direction, the Negro has lost all he gained in the first 20 years after the Civil War.

"The Republican party must fight for a square deal for 14,000,000 loyal Americans or the Negro vote will go to its opponents. The Republicans under the guise of Lincoln's principles, can no longer win the Negro vote."

It must be part of our program for 1920 to seat a black man in Congress, for no white man, no matter how fair, can interpret the feelings of the black man. We must make another attempt through the party of Lincoln. We cannot afford to try the Socialist party, for the Negro must tie to a winning party.

"There must come a revolution in the Negro church and in Negro educational leadership, for we cannot afford to have our thoughts molded by leaders in the control of rich philanthropists."

"CHI," A REAL SOCIETY CENTER.

Chicago, Jan. 15.—Chicago has not only proved itself to be the "top of the world" in a business and political way, but has entered the realm of the favored in a social way. The most elaborate social functions ever held in the middle west have re-

cently taken place amid the unending activities of this great international center.

Where there is real society, and the luxurious expression of social good will, there must be prosperity, and where there is prosperity there is wealth, and where there is wealth is success.

Eyes have been seen gathered under one roof such a galaxy of social lights, beauty and splendor, as were found at the reception in the magnificent Hotel Vincennes, when Mr. and Mrs. Jesse Binza, 5922 South Park Avenue, entertained their guests from Detroit, Mich. Mr. and Mrs. James H. Cole and son Walter Cole. The specious parlors reception rooms and dining rooms of the hotel were beautifully decorated with flowers especially appropriate for the Yuletide, with immense wreaths of holly containing the initial "B" in the center, chief in the scheme of decoration.

In the reception line were Mr. and Mrs. Jesse Binza, the latter gowned in black iridescent over satin, with diamond ornaments; next in line were Mr. and Mrs. James Cole and son, Mrs. Cole's gown was white brocade with lace trim and rare emerald lace with pearls and diamonds. After the guests had been presented, and an hour spent in socializing, the dance was on. A prettier picture could not be mentioned—the men in faultless evening attire, the ladies, without exception, veritable dreams, wearing the finest creations of the most modern conception. More than 200 guests were present at the most elaborate social event ever held in Chicago, and which marks a new epoch in the social life of the community.

Other elaborately formal and beautiful events during the holidays that mark history in the progressive changing events of the times were the exclusive Fort Club dance in honor of the Alpha Phi Alpha visitors by Dr. and Mrs. George Cleveland Hall, the Alpha Phi Alpha dance to their wives and sweethearts, and the Phalanx club dance at Entertainers hall.

NEGRO FINANCIER, VICTIM OF BOMB THROWER.

(Associated Negro Press).

Chicago, Jan. 15.—For the third time within six months, the property of Jesse Binza, banker and real estate dealer, was bombed by unknown parties. So critical has become the situation, and so determined are the colored people of Chicago to enjoy their constitutional rights that a new organization, the Chicago Protective Circle has been inaugurated for the avowed purposes of using every means within the law to put a stop to lawlessness and insidious propaganda. It is made up of the most substantial people of the community, and very heavily financed.

MARYLAND TO HAVE STANDARD OF EFFICIENCY FOR ALL TEACHERS.

Baltimore, Md., Jan. 15.—That there should be a uniform standard of efficiency for white and colored teachers, with a single salary scale that a commission should be appointed by the Governor to consider Negro education in Maryland, and that there should be closer co-operation between the State Board of Education and colored leaders were some of the suggestions made at a conference between leading colored men and the State Board of Education. The meeting was held at the Colored Young Men's Christian Association.

ARRESTED FOR EMBARKING IN DISTILLERY BUSINESS

Officers Find Five Stills, Cleverly Camouflaged With Daily Capacity of 400 Gallons of Moonshine.

Richmond, Va., Jan. 15.—Two Negroes are in jail here and warrants are out for four others, accused of operating a large illicit distillery a mile and a half from the city limits. Officers, making a raid, found five stills, with a capacity of 400 gallons of mash ready for conversion into moonshine.

The stills were located in a ravine, and were camouflaged with tree tops and piles of wood.

Chicago to Have Large Negro Institution of Education.

(Associated Negro Press).

Chicago, Jan. 15.—A new departure in educational advancement is about to be launched in Chicago when one of the largest educational institutions for the race in the country will be established here. The school will be known as the Morton Culver Hartwell Social Center, and the initial outlay will be \$250,000. It is expected that within a short time more than \$2,000,000 will be spent on the institution. The school will be established on the site of the Old Trinity Methodist Episcopal church. The school will be backed by funds from the great Methodist Episcopal church, raised in the extensive movement. The school is the outcome of southern migration, and larger educational opportunities.

Atlantic City to Erect Hall as Monument to Heroes.

Atlantic City, Jan. 15.—Many different views are held by Atlantic City folk on the subject of the Memorial Hall which the citizens of the popular seaport town are planning to erect as a memorial for the colored soldiers who fought in the great war. A meeting was held recently in the offices of Mayor Macbarat at which various race men aired their views. The subject of segregation and race discrimination was mentioned by some of the speakers and some of them expressed the hope that nothing would be done which would be done which would set the colored man apart from his fellows because the progressive Negro today was working for equal opportunity and was opposed to segregation or anything which smacked of it. The beachfront hotel men have offered to give \$45,000 toward the project.

HOTEL STOCKHOLDERS GET LIQUOR DIVIDEND

Large Stock of Whiskey and Wine Goes to Pittsburgh Owners.

Pittsburgh, Pa., Jan. 15.—Distribution of its large stock of wines and liquors, as a dividend to its shareholders, was announced today by the Pittsburgh Hotel Company, operating the William Penn and Fort Pitt hotels here.

The circular received by the stockholders pointed out that after going into the question of expropriation and finding this was not feasible at this time, the Board of Directors decided to charge off the whole amount at which these supplies had been carried on the company's balance sheet and to "distribute them among the stockholders as a gift."

"The supply has been proportioned among the various stockholders," says the circular, in lots corresponding generally to their proportionate ownership in the enterprise, although, with the consent of the larger stockholders, the allotment to smaller stockholders somewhat greater than they would be entitled to receive on a strict dividend basis."

FLORIDA MOB FORCES CHAUFFEUR TO ACKNOWLEDGE LYNCH VICTIM.

Cedar Rapids, Iowa, Jan. 15.—Wintering in Florida turned out to be more than a mere record of pleasure for Dr. and Mrs. W. R. Groover (white), 1619 C. Avenue, this city. The local people were driving by automobile from Lakeland to White Springs when they noticed a crowd near a swamp. Mrs. Groover remarked that it must be a country funeral, because the large number of men all had stern and sober appearances. Dr. Groover said that he had never witnessed a burial in a swamp, and as their automobile came closer to the men they found themselves confronted with the sight of a man hanging from a rope.

Insults Chauffeur

"An amusing incident occurred," is the way the Evening Telegram of Lakeland, Fla., referred to the lynching. "When three or four cars drew up, filled with tourists from the North, the first machine was driven by a colored chauffeur and when the men responsible for the dead man saw this cloud arrive on the horizon they immediately ordered him to get out of the car and shake hands with the lynched man who was dangling from a tree."

Leaves Scene

Dr. Groover declared that the chauffeur's skin turned as white as a sheet. He returned to his car, stepping on the accelerator and the automobile left there, taking every mile in the country on high with a Barney Oldfield flourish.

GEORGIA MAN WITH ONE MULE PRODUCE COTTON WORTH \$5,000.

Griffin, Ga., Jan. 15.—The value of Spalding county's cotton products this year will run close to \$6,000,000, exceeding any previous year by more than \$1,500,000 in the estimation of the Griffin and Spalding board of trade. Approximately \$4,750,000 has been received for the 21,500 bales already marketed. The crop will total nearly 26,000 bales, or about 3,000 bales less than the largest crop the county has ever raised. Forty thousand acres were planted to cotton in Spalding this year, against 52,000 in 1918. Although worked under boll weevil conditions by a limited supply of labor, the land averaged 255 pounds of lint cotton per acre, which is the highest average ever recorded here.

One colored farmer has already gained 27 bales from land cultivated by himself and family and one mule. His receipts from the sale of the cotton and seed were \$6,500. Another worked two mules and raised 52 bales which sold with the seed for \$10,400.

While diversification and acreage reduction will again be advocated by the agricultural division of the board of trade next year, it is not the intention of the organization that the yield per acre be reduced. Already the farmers are plowing the land which they intend planting early and using the proper chemicals in fertilization, it is believed the yield per acre can be again increased in spite of the boll weevil.
